

EDS Roofing Supplies (Midlands) Limited on behalf of Italiana Membrane S.p.A. in the UK, operate an Approved Contractor Scheme with a network of Nationwide Contractors and Installers who participate in their scheme and have experience in all types of contracts from small domestic works to the largest high profile projects all over the UK.

The two important elements in the process of successfully waterproofing a property are the selection by a property owner of the waterproofing membranes to be installed and the Company or Person to carry out such a task. By choosing an EDS Roofing Supplies (Midlands) Limited Approved Contractor whose employees are Approved Installers to carry out the installation of waterproof membranes, the property owner can be confident that the quality Italiana Membrane S.p.A. Waterproof Membranes used will be correctly installed and able to be protected by an appropriate guarantee. With Italiana Membrane S.p.A. waterproofing products manufactured under recognised Quality Control Systems, it is advisable that such quality waterproofing membranes should also be installed to appropriate standards.

Approved Contractors are vetted to ensure that as a Company all aspects of their Administration, Management, Site Works and Supervision are of the necessary standard to be classified as an Approved Contractor.

Approved Installers are vetted and where necessary trained to ensure that as an Individual they are competent in all aspects of being able to install waterproof membranes to applicable government, industry and manufactures standards thus enabling them to be classified as an Approved Installer.

All Approved Contractors are in possession of appropriate certification to identify them selves as such, this certification also details information on those Approved Installers affiliated to the contractor.

The names and address's of Approved Contractors able to undertake roofing works in a particular region of the UK are available upon request.

The benefits of employing an Approved Contractor to install Italiana Membrane S.p.A. roofing products are numerous and amongst these can include when and where necessary: -

- Pre-contract meetings
- Site inspections undertaken by employees of EDS Roofing Supplies (Midlands) Limited
- Reporting procedures
- Sign-off inspections
- Review meetings
- Prompt and professional response to technical issues on site
- Comprehensive guarantees
