

**JIGSAW Third Party
Material & Workmanship Cross-Guarantee**

The **JIGSAW** guarantee is underwritten by three distinct bodies; these being a *product manufacturer* that has taken out insurance for the products they manufacturer, a *product installer* that has taken out insurance applicable for their professional needs and a *product supplier* that has also taken out suitable business insurance.

After extensive testing and sourcing of bituminous waterproofing membranes and insulation products manufactured by numerous leading manufactures throughout Europe and beyond, and to ensure that the products installed on to a property's roof are done so not only in accordance with the product manufacturers instructions, but are done so having followed a proven Chain of Supply (commonly known in the construction industry as chain of custody); from: - *Manufacturer*: - to *Manufacturer's appointed Agent*: - to *Supplier*: - to *Installing Contractor*: - to *the employees of the Installing Contractor*: - to *property owner*, thereby ensuring that when installed on to a properties roof, the products are as pristine as the day they were made.

The basis and ethos behind the **JIGSAW** guarantee can be summed up in the document; Approved Contractor, Installer and Supplier Scheme (Chain of Supply) -- 'A scheme that provides a property owner with peace of mind'

Once vetted and accepted (not all those who apply to join the **JIGSAW** guarantee scheme are accepted, likewise there are instances when renewals are refused or approval terminated) into the **JIGSAW** guarantee scheme all participants are allocated into a specific category (each with their own logo and responsibilities), these being: -

Approved Manufactures Product: Products from some of the World's leading producers of roofing felt and thermal insulants.

Approved Supplier: Strategically located across the UK employing people with in-depth product knowledge able to offer advice as and when required.

Approved Contractor: Companies large and small located across the UK with a real wealth of expertise in their chosen profession, all of whom have approved Installers amongst their employees.

When employing a roofing contractor to undertake any roofing works on a property, it is advisable to ask to see their **JIGSAW** certification (all certification is valid for a clearly stated 3 year period, after which renewal is required). To check if a roofing contractor, product manufacturer, supplier, etc is approved visit the **JIGSAW** guarantee scheme web site/facebook business pages (facebook.com/jigsaw-guarantee).

Over the many years the **JIGSAW** guarantee scheme has been in existence, clients across the UK and overseas have had their properties roofs covered by a **JIGSAW** guarantee, a small example of which are:-

Newark & Nottingham Roman Catholic Diocese, Westminster Roman Catholic Diocese, Leicester City Council, Northampton Hospital Trust, Royal United Hospital Trust, Aldwyck Housing Group, Goliath Developments Ltd, Ministry of Defence Estates, Premiecrest Executive Pensions, Royal London Mutual Shopping, Spire Homes Limited, Huntingdonshire District Council, Bradwell Estates, Wesleyan Assurance Society, Rolls Royce, Cannon Health, etc. (see Project Reference Document for specific examples)

The length of **JIGSAW** guarantee term is dependent upon the products used in the roofing works, with the most common being 5 years, 10 years, 15 years and 20 years, product information is readily available from any approved participant of the **JIGSAW** guarantee.

If required; roofing specification documents can be obtained for roof works to a specific property through any participant of the **JIGSAW** guarantee scheme or by emailing your request to: - jigsawguarantee@outlook.com

JIGSAW Third Party Material & Workmanship Cross-Guarantee Bringing Property Owner – Roofing Contractor – Supplier – Manufacturer together to make the link between all complete. A guarantee for all guaranteed by all.

JIGSAW Third Party Material & Workmanship Cross-Guarantee bringing Property Owner – Roofing Contractor – Supplier – Manufacturer together to make the link between all complete. A guarantee for all guaranteed by all.

10/15/20 year Material and Workmanship Guarantee for roofs irrespective of size of roof area, with the guarantee term determined upon the Cap Sheet used and all products being compatible with one another.

This type of guarantee is available when a **JIGSAW** Approved Contractor installs any waterproof membranes and or insulation products as included in the **JIGSAW** guarantee scheme (including those manufactured under the brands of Novaglass, EDS Waterproof Membranes and TecnoNicol Italia) when purchased from a **JIGSAW** approved supplier. All **JIGSAW** Approved Contractors and Suppliers have appropriate certification available for inspection.

A no cost guarantee, the **JIGSAW** guarantee brings together all the applicable parties to a guarantee in one independent document ensuring a property's roof is sensibly protected. A guarantee is issued by **JIGSAW** upon receipt of a completed guarantee request form and copy invoices for the products stated on the guarantee request form.

Only the following PRODUCTS are acceptable for use in a **JIGSAW** guarantee

*interval period(s) an inspection & relevant remedial works are required, see guarantee document for information
